Summary

Results-driven Web Developer with a deep, all-encompassing curiosity for everything related to the web, ranging from modern front-end architectures to underlying systems. Active open-source contributor with a proven track record of delivering impactful tools, packages, and production-ready products. Highly proficient in TypeScript, specializing in building scalable, high-performance web and desktop applications alongside cross-functional collaboration within Agile teams. Eager to bring technical versatility and a user-centric mindset to challenging, high-impact engineering environments.

Skills

Programming	TypeScript, JavaScript, Python, Rust, SQL, Bash
Back-end	Nodejs, Hono, Django, RESTful API
Front-end	React, Nextjs, TanStack Start, Tauri (Desktop Application), Tailwind CSS, Bootstrap, Responsive Design, Progressive Web Application, HTML5, CSS3, SASS
Databases	MySQL, MongoDB
Infrastructure	Docker, Cloudflare Workers, CI/CD (GitHub Actions), Linux Administration, Nx, Git
AI	AI-Assisted Development, Prompt Engineering, OpenCode, Hermes
Practices	Agile/Scrum, Monorepo Architecture, SOLID, Functional Programming, Code Review, Test-Driven Development
Languages	English (Professional), Persian (Native)

Experience

Dropp Technologies Group

FRONT-END

Sep. 2026 – present

- Contributing to software development projects as a front-end developer.
- TypeScript, Nextjs, TanStack Start, React, Vitest, Date Conversion and Localization, Drag and Drop, Storybooks for components, i18n implementation, State Management, TailwindCSS, Shadcn, Responsive Design
- Documentation, Team Collaboration, Agile/Scrum

Iran Estehlal

NPM PACKAGE

Sep. 2026

- A zero-dependency library for converting between Gregorian and Iranian Hijri dates, providing reliable calendar conversion for JavaScript and TypeScript applications.
- TypeScript, Vitest, Date Conversion and Localization, Enforced Commit Conventions, Git Hooks, Github Actions

Perseus

DESKTOP APPLICATION

Jul. 2026 – present

- a cross-platform application for translating English Wikipedia articles into Persian Wikitext, featuring AI-assisted translation, intelligent link resolution.
- TypeScript, Monorepo Architecture, React, Vitest, AI-Assisted Development, Prompt Engineering, Responsive Design, TailwindCSS, ShadcnUI, Tauri, Rust, Nodejs, Hono, LLM Integration, Nx, Git Hooks, Github Actions

RTLeeBOT

BROWSER EXTENSION

Jul. 2026

- A browser extension that solves the lack of proper RTL support and custom Persian font across major AI chat platforms including ChatGPT, Gemini, Claude, Grok, DeepSeek, Perplexity, Copilot, DuckAI and NotebookLM.
- Typescript, React, TailwindCSS, Prompt Engineering

Persian Holidays

NPM PACKAGE

Jun. 2026

- A lightweight package providing structured Persian public holiday data for applications that need to display or process Iranian holidays.
- TypeScript, Vitest, Date Conversion and Localization, Enforced Commit Conventions, Git Hooks, Github Actions

YouTube Trending Videos Data Analysis

DATA ANALYSIS

Jun. 2025

- Analyzed YouTube trending videos to identify patterns in video popularity, engagement, and content performance across different categories.
- Python, Data Analysis, Data Visualization, Pandas, Numpy, Jupyter Notebook

PhoenixTask

FRONT-END

Jun. 2025 – Oct. 2025

- Built a Trello-inspired task management application, implementing the front-end independently as a personal project.
- TypeScript, Nextjs, React, Date Conversion and Localization, Drag and Drop, i18n implementation, State Management, TailwindCSS, Responsive Design
- Team Collaboration, Agile/Scrum, Intern Mentoring

Persian Calendar

OBSIDIAN PLUGIN

Dec. 2025 – present

- a Persian calendar plugin for Obsidian with 13K+ downloads, 120+ GitHub stars, providing Iranian calendar support and date-related functionality within the note-taking environment.
- TypeScript, Vitest, SOLID Principles, Date Conversion and Localization, i18n implementation, BEM Methodology, Responsive Design, Git Hooks, Github Actions
- Code Review and Collaboration

Tourino

FRONT-END

Jan. 2025 – May. 2025

- Contributed to a startup web application by improving SEO, reducing bundle size, and refactoring the front-end architecture for better performance and maintainability.
- TypeScript, Nextjs, React, Date Conversion and Localization, Drag and Drop, State Management, Responsive Design, MaterialUI, SASS, Git Flow
- Team Collaboration, Agile/Scrum

Quera

FRONT-END

Jan. 2024 – May. 2024

- Contributed to a four-person team building a Trello-like task management application, working across front-end development, problem solving, and Agile collaboration.
- TypeScript, React, Date Conversion and Localization, Drag and Drop, State Management, TailwindCSS
- Team Collaboration, Agile/Scrum

Certifications

Task-Oriented Bootcamp in Front-End Development with React , Quera	Certificate
Project-Oriented Course in Front-End Web Development , Quera	Certificate
CS50x , Harvard University	Certificate
Task-Oriented Course In Linux , Quera	Certificate
Task-Oriented Course In Fundamentals Of Python Programming , Quera	Certificate
Task-Oriented Course In Prompt Writing , Quera	Certificate

Education

Islamic Azad University - Science and Research

MASTER OF SOFTWARE ENGINEERING

Tehran, Iran

2025 – present

Iran's National University of Skill - Shamsipour

BACHELOR OF SOFTWARE ENGINEERING

Tehran, Iran

2021 – 2025
